ABOUT ME

I am a Software Engineering student pursuing a BSc (Hons) at Cardiff Metropolitan University, London, with over 10+ months of industry experience. I hold a Full-Stack Developer Diploma from IJSE - Institute of Software Engineering. During my internship at Ceyentra Technologies (Pvt) Ltd.,

I maintained 2 systems and developed client projects, focusing on delivering creative web solutions. At Seekers Cloud, I gained expertise in quality assurance, maintaining and ensuring the quality of 5 systems. Proficient in test planning, execution, and defect management, I am dedicated to delivering impactful software solutions through collaboration and innovation.

JOB EXPERIENCE

Quality Assurance Intern at Seekers Cloud (Pvt) Ltd. 08/2024 – PRESENT
I am currently an Intern QA Engineer at Seekers Cloud, where I perform manual testing to identify and document defects, ensuring quality standards are met. I work closely with development teams to analyze, reproduce, and resolve issues, improving software performance and functionality. My role includes creating test cases, executing test plans, and verifying fixes to maintain high-quality releases. Additionally, I actively contribute to client meetings, project mockups, development, debugging, and testing, effectively managing my time to ensure project success.

Trainee Software Engineer at Ceyentra Technologies (Pvt) Ltd. 02/2024 – 08/2024
During my internship as a Software Developer at Ceyentra Technologies (Pvt) Ltd., I gained significant experience in frontend development and software engineering. I worked closely with the development team to design, build, and maintain web applications, applying my expertise in REACT, REDUX, JS, CSS, and HTML. I was involved in the full development lifecycle, from creating project mockups to conducting testing and debugging, which allowed me to enhance my skills and grow as a software engineer.

SKILLS

TESTING SKILLS

Test Planning: Developing comprehensive test plans.
Test Execution: Performing functional, non-functional, and system testing.
Requirement Analysis: Understanding and analyzing software requirements.
Defect Tracking: Using defect tracking tools like JIRA.
Test Case Creation: Writing detailed test cases based on requirements and design documents.
Web Testing: Skills in testing web applications using manual testing.

TOOLS AND TECHNOLOGIES

Automation Frameworks: Knowledge of frameworks like Selenium.
API Testing Tools: Knowledge of tools like Postman.

METHODOLOGIES AND PRACTICES

Agile/Scrum: Experience working in Agile or Scrum environments.

EDUCATION

BSc (Hons) Software Engineering
Cardiff Metropolitan University
11/2024 – PRESENT

Graduate Diploma in Software Engineering (GDSE)
Institute of Software Engineering (IJSE)
04/2022 – 08/2024

PROJECTS

DEVELOPERS STACK

I was responsible for conducting comprehensive manual testing for this project, ensuring that all functionalities were

EXPLORE VACATIONS (2024)

I was tasked with executing comprehensive manual tests to confirm the integrity and functionality of the entire project.

EXPLORE RENT (2024)

My role involved performing detailed manual testing to ensure the thorough validation of all project functionalities.

K.P TEXTILE

I ensured all functionalities were validated by conducting in-depth manual testing throughout the project.
